

Call Point CP-23

help is merely a button press away!

CP-23 is Emergency Communicator, designed to work with Climax Medical Alarms, including CTC-1041RV, CTC-1052RV and CTC-1068RV. It can be mounted at any place of home for two-way communication with the Central Monitoring Station in an alarm event.

It provides additional protection for you in area of your home where you need it most. Certified to IP44, CP-23 can be mounted in the bathroom to protect you if any slip or fall happens. A simple press of a button can open two-way voice communication channel between you and the Central Monitoring Station. With microphone and speaker inside, you can talk to the Central Monitoring Station right through the pendant like a speaker phone. It ensures more accurate and faster emergency response.

Features:

- “Two Way Hands-Free Voice Communication” allows the personnel in Central Monitoring Station to talk to the user, and listen-in to what is happening on his/her side through the built-in microphone & speaker without moving to the Control Panel
- Low battery indications
- Waterproof, IP44 certified
- Ultra low power consumption
- Excellent voice quality : answer calls remotely within 12M from CP-23
- Compatible with Medical Alarm Panels CTC-1041RV & CTC-1052RV & CTC-1068RV
